Cleaning

It is important for us that all items reach you in an immaculate condition. You must return items in exactly the state of cleanliness in which they were received. They must be in a condition that allows the BBQ to be used the following day by 8.30am following your event.

The trailer is made of stainless steel. To clean, please use soapy water and wash down the BBQ plate and surroundings. There is a drainage hole with a small bucket below which will need to be emptied during and after cleaning and before the BBQ Trailer is moved.

Safety

You agree that no unattended children shall be in contact with the trailer and that the trailer be under supervision at all times and operated in a safe manner.

Mortgage Room accepts no liability whatsoever for personal injury or property damaged arising out of the operation and use of the BBQ or the trailer whilst under the care of the user.
